EDUCATION

- PhD. Individual Differences and Evolutionary Psychology, University of Texas at Austin
2014
- B.S. Psychobiology, Anthropology minor, University of California Los Angeles
2006

ACADEMIC EMPLOYMENT

- 2014- Present Assistant Professor, Department of Psychology, California State University San Bernardino (CSUSB)

RESEARCH INTERESTS

In my research I apply an evolutionary perspective to the study of human mating strategies. I study the breadth of human mating strategies ranging from short-term sexual strategies to long-term committed romantic relationships. My work examines mate attraction, sexual behavior, romantic relationship psychology, and how mating strategies influence social interactions.
